

Online banking – step by step.

1

Activating access

Activate your online banking access easily at any branch or via internet.

2

Get your login details

After that you will receive the login details for your initial registration for online banking.

3

Log in

Log in with your username and PIN on the website of your Sparkasse. You can then assign a new password of your own choice.

4

Manage your account

In your online banking you can check your account balances, carry out credit transfers or set up standing orders and exemption orders.

Important: To do this, activation for a TAN legitimization process is required – chipTAN or pushTAN.
